PROJECTS

RetailRocket Executive Analytics Case Study [\[Report PDF\]](#) [\[GitHub\]](#)

Python · SQL · Product Analytics · Matplotlib · Seaborn

- Analyzed **2.75M+ clickstream events** across **1.4M+ customers** to evaluate user journey, funnel drop-offs, retention, and merchandising.
- Built end-to-end analytics using **Funnel Analysis**, **RFM Segmentation**, **Cohort Analysis**, **SQL Window Functions**, and **Market Basket Mining**.
- Identified **97.3% View→Cart drop-off**, **72% cart abandonment**, and **166× product affinity lift**, informing conversion optimization and cross-selling strategies.
- Presented executive recommendations with **15+ business charts** for product and marketing teams.

UCI Online Retail II Analysis [\[Report PDF\]](#) [\[GitHub\]](#)

Python · Business Analytics · Cohort Analysis · RFM

- Analyzed **500K+ transactions** across **4,286 customers**, **4,011 products**, and **37 countries** to evaluate revenue and market performance.
- Evaluated customer purchasing behavior, product performance, and retention using **Cohort Analysis** and **RFM Segmentation**.
- Identified top **10% customers generated ~60% revenue** and UK contributed **~84% sales**; uncovered critical retention gaps.
- Presented executive recommendations for customer retention, inventory optimization, and revenue growth.

Marketing Campaign A/B Testing & Analysis [\[GitHub\]](#)

Python · Pandas · SciPy · Statsmodels

- Conducted A/B testing and EDA on **1,000-day marketing dataset** to evaluate Facebook vs. AdWords campaign performance.
- Applied **Independent Two-Sample T-Test**, **Confidence Intervals**, and **Cointegration Analysis**, demonstrating Facebook's superior conversion rate and long-term equilibrium with spend.
- Recommended dynamic budget allocation strategies based on seasonal trends, optimizing **CPC** and campaign **ROI**.

Vendor Performance Analysis & Profitability Optimization [\[GitHub\]](#)

SQL · Python · Tableau · Statsmodels

- Conducted pricing and profitability analysis revealing price-margin independence; identified **198 low-volume, high-margin brands** for targeted promotions.
- Identified vendor concentration risk (top 10 buyers = **65.69% revenue**); showed shifting focus to smaller buyers raises margins from **31.17% to 41.55%**.
- Uncovered **\$2.71M in stagnant inventory**; demonstrated bulk ordering reduces unit costs by **up to 72%** to improve capital efficiency.
